a Widgit guide to

King Edward Mine

 Cornwall  was  famous  for mining  tin.

 Tin  was  used to make  bronze,  solder  and  in  mobile phones.

 Tin  is very  rare.

Tin Mining - A brief history

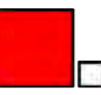

Sensory highlights

  **1870**
Mining during the 1870's

    
Men would go underground to dig out rocks.

  
Gun powder was used to break rock.

 +    
Women and children broke big rocks into smaller rocks.

   + 
Tin is very heavy and sinks.

    
Tin was mixed with water to separate it from the rock.

   
This material is called Black Tin.

 
Picnic, Blackberries

Engine Houses

 
Birds, Silence
